

# ResearchPath – Reduce Library Spend on Lexis and Westlaw

**ResearchPath is a module within ResearchMonitor – our usage tracking solution for online resources and applications – which helps you to reduce your library spend on Lexis and Westlaw.**

ResearchPath provides groundbreaking control over search costs and seamlessly integrates with Lexis and Westlaw.

## Benefits

**Reduced costs, increased search efficiency and rapid ROI**

<b>Eliminate out-of-contract search costs</b>	<b>Improve utilization of your online resources</b>	<b>Improve management of your budget</b>	<b>Increase and improve spending visibility</b>
<b>Increase awareness of search costs</b>	<b>Guide research to cost effective subscription</b>	<b>Reduce in-contract renewal prices</b>	<b>No more \$20,000 horror stories!</b>

## Features

**When researchers run searches or view content it can:**

- Display messages to highlight that out-of-contract content incurs additional charges
- Optionally block researchers from running out-of-contract searches or viewing excluded documents
- Provide links to alternative subscribed sources, directly within the browser
- Generate real-time emails alerts when search conditions are met
- Limit out-of-contract searching for non-billable matters
- Record out-of-contract searches for later reporting

Each of these features can be configured for your firm, for example only blocking certain people or showing messages after researchers exceed spending thresholds.

## Management and Reporting

- Centrally configure the level of control and interaction using the ResearchPath Console
- Tailor the settings for different groups, times of day, sources and matters
- Set a maximum spend or number of searches per session, per matter or per day
- Run reports to show out-of-contract searches down to the individual or grouped up by practice area, office, etc.
- Capture all out-of-contract searches or attempts, including search terms and databases searched

## Email Alerts

- Receive instant email alerts when researchers exceed certain spend thresholds or are warned and redirected to an alternative resource
