The very best in subscription spend management
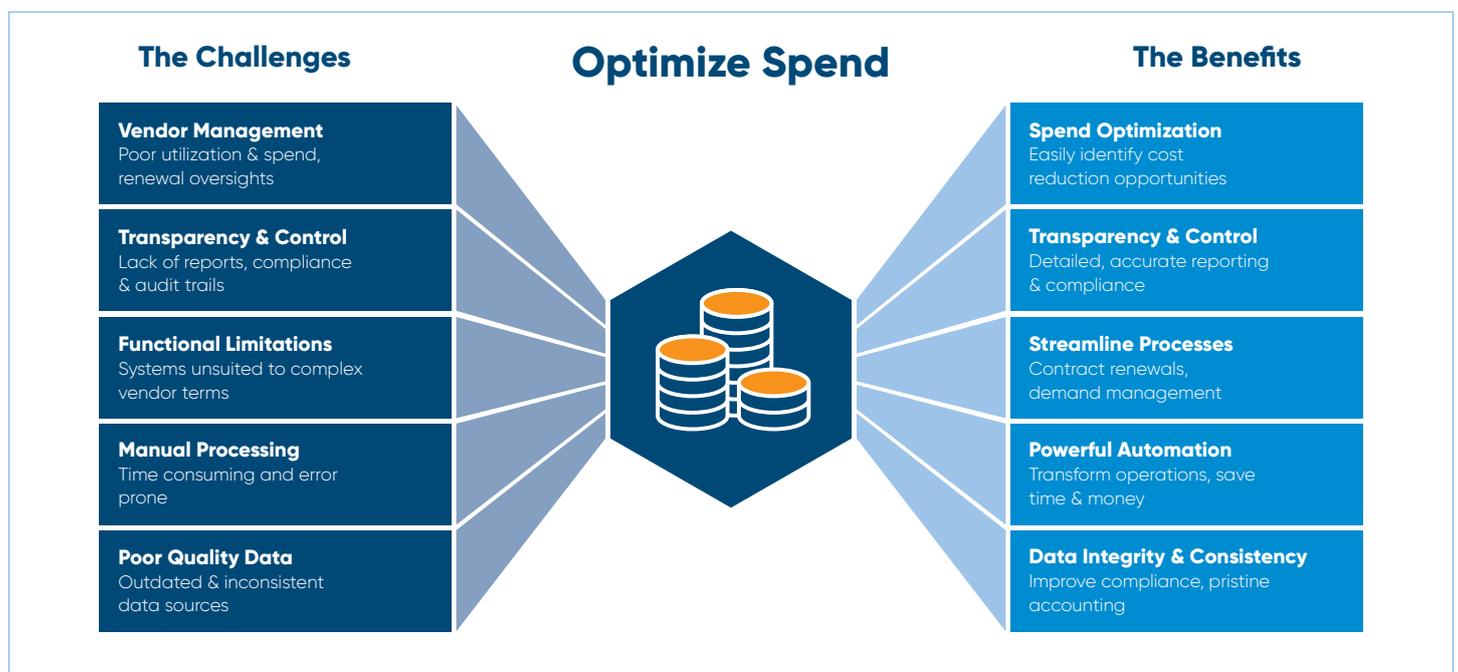

OPTIMIZE SPEND

Manage your enterprise subscription spend in one powerful and easy-to-use platform. Have the transparency you need to take control and maximize every dollar spent.

Optimize Spend transforms the way you manage your enterprise subscription spend, with an emphasis on cost cutting, process efficiency and vendor compliance. It combines two industry leading systems* with major new capabilities to offer a best-of-breed platform.

Bringing all your enterprise subscriptions into a central platform makes it easier to manage and optimize subscription spend. It puts information on your vendors, contracts, products and services for every user in one place, giving you a single view of your entire inventory.

Pinpoint opportunities to optimize your subscription spend

Optimize Spend unlocks valuable insights, with personalized dashboards that bring your subscription spend to life with visual analytics, actionable insights and instant reporting. It gives you an advanced understanding of your subscriptions so you can make smarter, insight driven decisions that will maximise their subscription value.

Optimize Spend

The Challenges	The Benefits
Vendor Management Poor utilization & spend, renewal oversights	**Spend Optimization** Easily identify cost reduction opportunities
Transparency & Control Lack of reports, compliance & audit trails	**Transparency & Control** Detailed, accurate reporting & compliance
Functional Limitations Systems unsuited to complex vendor terms	**Streamline Processes** Contract renewals, demand management
Manual Processing Time consuming and error prone	**Powerful Automation** Transform operations, save time & money
Poor Quality Data Outdated & inconsistent data sources	**Data Integrity & Consistency** Improve compliance, pristine accounting

Everything you need to optimize your subscription spend

Inventory & License Management	**Contract Management**	**Cost & Expense Allocation**
Budgeting	**Invoice Processing**	**Reporting & Analytics**
Compliance	**Interfacing & Automation**	**Document Storage**
Order Management	**Surveys & Self-certification**	**Workflow Management**
